

Hello friend,

Thank you for the interest to my soundset.

Wish you best experience with the new sounds in your collection.

This is a short AudioBombs Version. Full soundset is available here: <https://goo.gl/Zw8ihz>

I recommend to watch my video where I demonstrate all 5D expressions, Macros and X/Y used in my patches. So you will know how these expressions are supposed to be used.

Equator Presets Installation:

Unzip the file.

Put all 50 presets in folder:

Mac: Documents -> ROLI -> Equator -> Presets

Windows: Documents -> ROLI -> Equator -> Presets

Now you can find the presets in your Equator Browser.

Best regards,
Anton Anru
